DESCRIPTION

Recent Computer Science graduate with an associate degree seeking an entry-level position in software development, networking, or cybersecurity.

EXPERIENCE

.NET Developer Intern

SERTI Keyloop

📅 March 2023 – May 2023   📍 Montréal, QC

- Worked on mission-critical programs in C# and VB.NET.
- Used JIRA to keep track of tasks and issues that needed to be resolved.
- Participated in SCRUM meetings with the team to monitor the progress and to ensure it aligns with the product vision each sprint.

Student IT Technician

Champlain College Saint-Lambert

📅 October 2022 – February 2023   📍 Longueuil, QC

- Routinely checked the laptops and other electronic appliances in the college for bugs, and internal problems with the IT team.
- Kept track of requests, tasks, and problems on the college JIRA platform.
- Assisted students and teachers with issues related to printing, network connectivity, passwords, and any hardware-related problems.
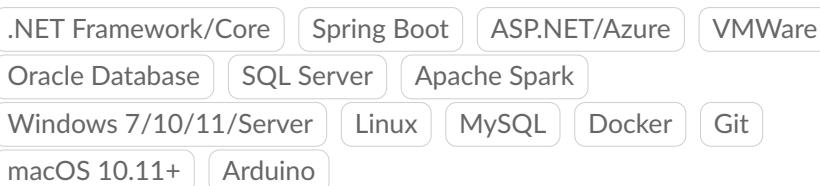

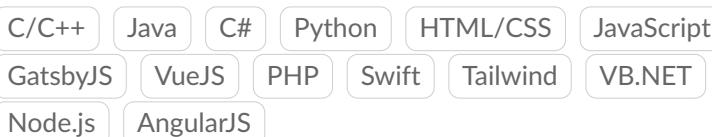

Retail Auditor

WIS International

📅 February 2022 – October 2022   📍 Montréal, QC

- Counted the stock levels and summarized reports to the store managers.
- Examined the current state of the items and reported any damages and spoilage back to the managers.
- Reorganized the stocks when necessary.
- Conducted audits with the store clerks to ensure accuracy and corrected any mistakes that were made after each count.
